

Retrofit Non-Return Valve

To prevent foul water flowing back from the blocked sewerage system to flood the property from the inside via toilets, plug holes and waste pipes. These unique and patented Retrofit Non-Return Valves can be simply pushed in to the existing pipework, whether plastic or clay, at the property's inspection chamber. The valves can be fitted in minutes and do not require any specialist expertise or equipment.

Benefits

- Simple push-fit installation into existing manhole
 - takes approximately 80% less time to fit than a conventional valve
- Unobtrusive when installed
- Two sizes available to suit DN110 and DN160 pipes
- Products available for clay and plastic pipe systems
- WRc approved product, Cert. No. PT/314/0111 & tested & approved to BS EN 13654
- Protects against pests, such as rats and other vermin, as well as backwater

Product Range

Product Code	Description
NRV4	100mm Non return valve for 110m Plastic Pipe
NRV4CLAY	100mm Non return valve for DN100 Clay Pipe
NRV6	150mm Non return valve for 160mm Plastic Pipe
